NEW YORK, Jan. 13 .- Organized chari-

ties in genaral and the United Hebrew

charities in particular, were scored and

denounced at the weekly meeting of the

Central Labor Union of NeW York in

Clarendon Hall this afternoon. Delegates

Robinson, of the Brotherhood of Tailors,

opened the ball by denouncing the methods

of the Free Employment Bureau, main-

tained by the United Hebrew Charities. He

declared that the bureau supplied "scabs"

to establishments which union men had

left on strike and urged that action be

immediately taken in the matter. Delegate

White spoke in a similar strain. He said

that the charities were the direct and

persistent enemies of self-respecting labor

and that those who supported them did so with mercenary purpose. In response to remarks made by delegate Dampf, who sought to soften the statements of his colleagues, White said that the managers of the Hebrew Charities Employment Bureau was fully aware that strikes were on in the houses to which he had sent men and that he had resented a protest made by a delegate from the Brotherhood of Tallors. Delegate Dampf then changed the tenor of his attitude. He said that trouble had been before experienced with the United Hebrew Charities. Dampf said:

These so-called charitable, institutions seem to want to pauperize us and compei us to ask all for charity. We must put our feet down on them, but let us do nothing hastily. All charitable institutions should be wiped out. They are not giving charity; they are robbing us and robbing every poor fellow they send out to work for cheap wages."

He said in explanation that President Henry M. Slocum, of the latter line had agreed to accept the terms proposed by the men. It had been decided at the meeting, he stated, to allow President Slocum until to-morrow to sign an agreement to that effect. If he failed to do this the tie-up would be extended to that line also.

Previous to the meeting Master Workman Martin J. Connolly said that in the early evening the electrical workers employed by the various companies had been asked by the officials of the company in the event of a strike if they would take the places of the notormen and conductors, and that they had refused, whereupon they were told that there was no further use for them.

The electrical men employed in various capacities number five hundred by the Brooklyn Heights Railroad Company, two handred by the Atlantic Avenue Company, 150 by the Queens and Suburban Company and seventy by the De Kalb Avenue Company.

As the conductors and motormen of the various lines came in to-night for the final trip for the day they made the usual inquiry, according to custom as to what car they could take out in the morning. They were told that they would be required to take none out as no schedule had been arranged. This is looked upon as indicating a lock-out.

Homestead Steel Men to Organize. HOMESTEAD, Pa., Jan. 13 .- The meeting of the steel workers held here in the rink this morning was attended by a crowd of about 350 workmen and business men. The meeting was called to order by Roscoe Connor, a man employed in one of the finishing mills. Connor is a non-union man, who came to the plant during the big strike. He was on one of the famous Pinkerton barges. P. Fagan, who keeps a small store on Eighth avenue, a member of the old advisory board and a man who is on the black list of the company, was made chairman of the meeting. At this juncture the newspaper representatives were asked to withdraw, which they did very quietly and promptly.

A man named Thomas Graham then arose and in a boisterous manner demanded that Hugh O'Donnell withdraw, as he also was a newspaper man. The whole assemblage here arose and excitement was the order of the meeting. All were anxious to have him remain and the obstreperous Mr. Graham was promptly squelched. Mr. O'Donnell took the stand and made a twenty-minute speech in which he deplored the action in the expelling the correspondents.

President M. M. Garland, of the Amalgamated Association of Iron and Steel Workers, explained the benefits of organization, and told the men that he was willing to organize them then, in a week, or in a year. He said he was not there as an agitator; that the matter was one to be decided by themselves. They had signed the scale and he did not want them to break it. It would be well, however, to organize. he did not want them to break it. It would be well, however, to organize. A motion was made to organize immediately and a great commotion occurred. It was finally decided to postpone any such action. The meeting then adjourned to meet next Sunday. The sentiment was very evidently in favor of an organization.

Pennsylvania Miners. DUBOIS, Pa., Jan. 13 .- The prospects for a speedy settlement of the coal miners' are willing to work on short time, if their comrades who were recently discharged are taken back. They say they will make this concession in order to keep the families of the idle miners from starving.

Mr. Elliott, general manager for Bell, Lewis & Yates, owners of the mines in which the strike is in progress, has gone to Buffalo to lay the proposition from the men before the members of the firm. He is expected back to-mororw, and on the reply he will bring depends the immediate outcome of the strike. The strikers say they are willing to make any reasonable compromise that will give all of them at least enough to provide bread for their families.

The Strike Deplored. HAVERHILL, Mass., Jan. 13.-Nearly all the labor organizations held meetings today and the strike situation was the main topic discussed. The prevailing sentiment was in favor of a closer combination among the different departments of shoe workers to win the strike and many suggestions for aggressive action were made, although none were adopted. Several ministers made ref-erence to the strike in their sermons to-day and the situation was generally deplored. The men who were injured in the fight Friday evening are nearly as well as

TRENTON, N. J., Jan. 13.-Church members, regardless of denomination, are forming a law and order league to put a stop to Sunday liquor selling and to close up the disorderly houses. The subject of the purification of the city was discussed at a mass meeting held to-day in the rooms of the Y. M. C. A. Secretary Vetter, of that organization, criticised Chief of Police McChesney, accusing him of inactivity and lack of knowledge of existing evils. He wanted to knowledge of existing evils. He wanted to know if the chief was not aware that even in the State House liquor was sold without a license, and that the patrons of the place were mainly State officials. The speaker declared that the Mercer county Wheelmen maintained a "can room" at their house, and that the heart of the city was honeycombed with ambling houses, while the streets swarmed with fallen women. It is believed that public sentiment will force the police to act very soon.

Went Up in a Balloon and Dropped in St. John's River.

JACKSONVILLE, Fla., Jan. 13 .- A nearly fatal balloon ascension occurred here this afternoon. Gussie Devaro was to have gone up in a balloon and make a flying leap on a parachute. She die not make her appeargates were present, and it was learned that the plan of the strike was formulated and thoroughly discussed.

At the various trolley stables or houses to-day each foreman was served with a notice from President Lewis and the board of directors of the Brooklin Heights railroad. This notice was to the effect that the foremen were to discharge every man who refused to take out a car at any time. The notice was not posted, but it will be if there is a tie-up and the consequent refusal to take out cars. The railroad people, however, posted notices in regard to the criminal code regulating railroads. The laws regulating and pertaining to strikes were printed in full, with the punishments for violations under the following captions: "Injury to railway property," "Damage by explosives," "Injury to engines or machinery," "Attempt to use explosives," "Threats or violence to passengers," "Interfering with passengers," "Obstructing railroad cars," "Rlots." The representatives of the railroads said in regard to the notices that they had been posted as a measure of precaution.

At the meeting of the members of District Aesembly K, of L to-night it was definitely decided to strike. There were present seventy-five delegates, representing the twenty-five local assemblies, and the ance and a Miss Russell, who has been posing at a side show in Jacksonville as a posing at a side show in Jacksonville as a Circassian beauty, consented to take her place. Miss Russ-II did not hear the report of the pistol that was to be the signal for her to jump, and the balloon went up 1,000 feet or more. She then cut loose from the balloon and when the parachute descended it landed Miss Russell in the middle of the St. James river. She became entangled in the parachute and was only saved after going down twice.

Not Telling Anything. CHICAGO, Jan. 13.—Local officials of the Burlington road and the Adams Express Burlington road and the Adams Express Company are still reticent about last night's robbery near Ottumwa. The estimated amount secured by the robbers has been reduced to \$3,000. Of this amount the railroad company's loss is about \$450 and the express company loses the balance. The messenger and all other employes received particular orders to withhold all information relative to the holdup from the press. General Superintendent Trego, of the Adams Express Company, said: "I know nothing whatever, and we are not prepared to give out any communication on the subject."

HIS IDEA OF WHAT IT WILL RE-QUIRE TO SET THINGS RIGHT.

London Chronicle Charges that the Sugar Trust Has Friends in Mr. Cleveland's Cabinet.

WASHINGTON, Jan. 13 .- There is no defiite programme for the House this week. There is a bare possibility that a new currency bill will be thrown into the arena of debate, but it is only a possibility. The consensus of opinion seems to be that any proposed currency legislation to be successful must be initiated at the other end of the Capitol. To-morrow is District of Columbia day, and on Tuesday the House probably will take up the consideration of the Indian appropriation bill which was reported yesterday, which is the only appropriation bill on the calendar. If the sundry civil appropriation bill (the most important of the bills not reported) is reached before the Indian bill be disposed of, the committee on rules probably will give the evening time to business given to the consideration of the findings

mand, but will, in the end, secure the sup-

port of both elements. He has been in con-

lined to them, has received very favorable

indorsement from the representatives

it has been brought to the attention of the

proper authorities n the executive branch of

the government. The bill will first provide for

the issuance of 21/2 per cent. bonds to the

amount of \$500,000,000, which are to be

paid in gold and are to be used both for

the purpose of meeting the current ex-

penses of the government and the redemp-

tion of United States and treasury notes.

The bill will also provide for the issue of

bank notes to take the place of treas-

ury notes in such way as not to produce

a contraction of the currency. Another

provision is that the national banks shall

be allowed to issue up to their par value

and the tax on national bank circulation

is fixed at one-fourth of 1 per cent. In the interest of silver, the bill provides for its unlimited coinage under the condition that the holder of silver bullion may take it to the mint and have it coined into silver

dollars, the government retaining as seig-niorage the difference between the coinage

value of the bullion and its market value on the day that the bullion is taken to the mints. The bill also provides for the withdrawal from circulation of all greenbacks, treasury notes and national bank notes below \$20, and the substitution of silver certificates in denominations of less than

\$20, which are to be payable in silver. The bill will contain provisions providing against either undue inflation or contraction.

The prospect is that the time of the Senate will be divided during the week between the discussion of the income tax based on the urgent deficiency bill and the continuation of the

debate on the Nicaragua bill. Senator Cockrell, chairman of the committee on

Cockrell, chairman of the committee on appropriations, is very hopeful of being able to dispose of the income tax question by the time the week shall be half gone and if he should succeed in this, Senator Morgan, who is in charge of the Nicaragua bill, thinks there will be no difficulty in securing a vote on the canal bill before the close of the week, thus leaving the way clear for the bankruptcy and territorial commision and other bills, as well as the other appropriation bill. Chairman Cockrell does not regard seriously the prospect of the prolonging of the income tax question. There will be several speeches which, while based on the deficiency bill, will be directed to the discussion of general finacial questions. There is no disposition on the part of the appropriation committee to curtail these speeches, but there has come to be some talk of night sessions in case they get to be too numerous

THE LAGONDA'S MATE.

Another of the Suspected Vessels Shows Up in Florida. FERNANDINA, Fla., Jan. 13.-Early

this morning there steamed up the bay : small ship that turned out to be the Norwegian ship Baracoa, Captain Clausen, that sailed from Boston about a week ago. This is the mysterious unknown vessel associated with the yacht Lagonda, detained by customs officers here yesterday and suspected, because of rifles and cutlasses being on board. The Baracoa is a swift iron steamer of 380 tons register. The chartering of this vessel is the result of Mr. Borden's visit to Boston the latter part of December. Borden stopped at the Adams House while in Boston and is re-ported to have passed himself off as an Englishman. As soon as the Baracoa dropped anchor a press representative boarded her. Captain Clausen said that his instructions from Mr. Borden, the charter party, had been to proceed from Boston to Fernandina and load with three hundred tons of merchandise for West Indian ports. He had received £475 sterling in advance for his services. The Baracoa came water ballasted and nothing suspicious was found aboard. Senors Monteli jr. and Mirandi, of the Lagonda, left here to-day and it is the opinion that they will not return. It transpired to-day that Borden re-ceived day before Christmas, via Mallori line, 150 large and small cases supposed to contain arms and ammunition. All that can be found of the 150 cases are the few that are on the Lagonda in the charge of United States marshals. The river will United States marshals. The report concludes: "The provision regarding the appointment of a committee of five members elected to the next Congress to visit the various Indian reservations is believed by the Committee on Indian Affairs to be of a special importance. The House of Representatives has never appointed but one committee to visit the Indian tribes, and that occurred ten years ago. The Senate has frequently, for a number of years, investigated through committees of its own members, the condition of the Indians on the several reservations."

ACTION TAKEN BY A MASS MEETING OF 'FRISCO CITIZENS.

Glaring Frauds at the Recent Election on the Coast Have Aroused the People to Get Together.

ment of Mose Gunst, the well-known sporting man, as police commissioner of San Francisco, the recent refusal of Acting United States District Attorney Knight to issue a warrant for the arrest of C. P. Huntington for violation of the interstatecommerce law and the issuing of a pass to Frank H. Stone, a politician, and the glaring frauds at the recent election caused Mayor Sutro to issue a call for a mass meeting of citizens to take action in the matter. The meeting was held last night in Metropolitan Hall, which was crowded by representative citizens. It is estimated that 10,000 people were turned away, being unable to gain admission. The meeting was very business like. Speeches were made by well-known men and a series of resolutions were adopted appropriate to the occasion. These resolutions denounce C. P. Huntington as a self-confessed briber; accuse him of taking \$56,000,000 from English stock-holders in the Central Pacific and a solemn protest entered against the passage of the funding bill, and the Speaker of the House is appealed to to protect the people of California by refusing to give a special order for a day to the Central Pacific Railroad Company, and each individual member of Congress is appealed to not overlook the 200,000 protests against this bill filed by inhabitants of the Pacific coast. The resolutions also demand that the legal authorities of the United States in this judicial district shall issue this judicial district shall issue a warrant for the arrest of Huntington. The President is appealed to to see that justice is done, and a demand is made that Messrs, Knight and Heacock do their full duty under the law or that they be removed from the offices they are disgracing and

Markham as the tool of the Southern Pa-cific railroad and the appointment of Mose Gunst as police commissioner is characerized as a burning shame and a disgrace to the respectable people of the community. It was resolved that a committee of three be appointed to wait on Gunst and reques him to resign the office of police commis sioner; also that a committee to act with other organizations of like character in securing the reforms so earnestly desired.

No Dendlock This Time. OLYMPIA, Wash., Jan. 13.-The Legislature, which convenes to-morrow, will vote for a United States Senator to fill the vacancy existing for the past two years owing to a deadlock in the Legislature. The only candidates who are considered to have any considerable following are: Congressman John T. Wilson, of Spokane, and Levi An-keney, banker, of Walla Walla. Ex-Senator John B. Allen and Amos F. Shaw, of Vancouver, are candidates, but have not been making an active canvass. The Republic-ans have eighty out of the 112 members

of the Legislature. Not a Democrat in the House. PORTLAND, Ore., Jan. 13.-The eighteenth biennial session of the Legislature will meet at Salem to-morrow. The Republicans have an overwhelming majority in both houses, the Democrats being unrepresented in the lower house. The leading candidates for United States Senator are J. H. Dolph, C. W. Fulton, of Astoria, and T. H. Tongue, of Hillsboro.

FOR ANNEXATION.

American League at Hawaii Petitions President Dole.

VICTORIA, B. C., Jan. 13.-The steamer Miowra arrived early this morning, ten days from Honolulu, having been off Cape Flattery in the fog three days. Hawaiian advices are as follows:

A letter suggesting that the government at once send a special annexation envoy to Washington was presented to President Dole and the Executive Council on December 31 by the American League. The petition is a strong one, and makes several telling points. It sets forth that since the question of the islands was in Congress before many fresh facts have come to light and many members of the Senate and House have changed their minds on the subject. In every instance the alteration of view has been from hostlity to friendliness for Hawaii. Even the administration now has ample and justifiable grounds for treating the matter differently, and is now in possession of reliable data. In 1893 it acted on misinformation. The petition further states that the sending of another commis-sioner will force the treatment of the issue largely removed and partisanship eliminated to a greater degree than ever. The appearance of a second commissioner before the same Congress will show that the people here are firm in the determination to secure closer union with the United States, The petition had an enthusiastic reception at the league the former night. It covers a subject that has been discussed not a little in the league and on the outside. The letter sug ests a single man as the delegation, but the individual in mind was not mentioned in the petition. From Samoa it is reported that just prior to his death Robert Louis Stevenson enter-tained three hundred natives on his birthday. According to his custom, he went about barefooted. The natives deeply regret his death.

WIFE AND BABE POISONED.

Charge Lodged Against a Well-to-Do German of Kansas City.

KANSAS CITY, Mo., Jan. 13 .- George Mc-Cullough, a German stonemason of Armourdale, was placed under arrest to-day, charged with poisoning his wife and two months' old babe, and for threatening the lives of Mr. and Mrs. G. Francks, his wife's parents. Mrs. McCullough died suddenly Oct. 26, and the baby followed soon afterwards. Because of ill treatment on the part of McCullough the woman had applied for a divorce. For doing this it now appears from the statements made by the Francks, McCullough threatened to kill his wife and baby, and later, when the Francks interfered made the same threat to them. The bodies of the wife and child will be exhumed and the stomachs examined for traces of poison. McCullough does not deny his gulit. All concerned are well-to-do Ger-
